

CRIMSON FLOODS FROM KILAUEA.

Volcano on Hilo Vomits a Cherry-Red Torrent.

Old Landmarks All Obliterated by New Flow.

Tremendous Destruction Among Old Forest Growth.

(BY CABLE AND ASSOCIATED PRESS.)

HILO (Island of Hawaii, T.H.) April 18. (By Mail)—Millions of tons of lava, which have been pouring from the great volcano of Kilauea during the past three months, have buried approximately twenty-five square miles of country under a coating averaging 100 feet in thickness. The great flow, streaming in every direction from their source in the old rift of 1843, still are moving slowly forward and at one point are within two miles of the sea, and twelve miles from the ocean head.

The glittering floods of crimson lava, are coming from the southern bank of Kilauea. What was formerly a quiet expanse of sandy waste, dotted with green oases, now is a smoking tract of ruin and desolation. A few shattered fragments mark the sites of former forests buried deep beneath the torrents of molten stone ejected by the volcano.

Trained observers, who have watched Kilauea for many years say that it is extremely difficult to find their way about or pick out the old landmarks. Where, in former days, stretched the level sandy wastes, are now plentifully sprinkled with olivine and volcanic rock, now there rise a lava dome three miles in length and upwards of 200 feet in height.

FLOW CHERRY-RED.
Welling from an earthquake rift, flows have piled on top of others, the great ones by hot cherry-red flames, some of which emit gas flames. At the summit of the dome a large lake of lava nearly half a mile in length, having an average breadth of 300 yards. From the sides of the lake lava fountains are continually playing.

Evidence of tremendous destruction is to be found in the section where the lower forests used to stand. Tall oaks, trees, now charred wrecks, but in some cases still burning, rise forlornly amid the general desolation.

In one place there is to be seen the remnant of a heavy stone wall which, before the last flow started, marked the boundary of the Kapaeha ranch. The moving lava surges against the wall, washed it over and buried the greater length of it under the molten flood.

The stretch of country across which the present lava streams are moving is a mass of under-the-surface tubes and tunnels formed by old flows, mostly in the great eruption of 1843. The present molten rivers running through these are continually blowing up the cavern roofs with loud explosions and showers of red-hot rock which make detailed examination hazardous.

The scene by night is described as one never to be forgotten. Great crevasses, small cracks and the living streams pushing forward, all glow with vivid crimson. Blazing trees caught in the flow, add their lurid background to masses of smoke and steam clouds.

With intense activity within the crater of Kilauea, volcano observers say that it appears probable that the present eruption will come to an end until late in the summer.

PREMIER FAILS TO GET CONGRESSMEN'S CABLE.

(BY CABLE AND ASSOCIATED PRESS.) LONDON, May 5.—The cablegram to Premier David Lloyd George yesterday, signed by eighty-eight members of the United States House of Representatives, protesting against the government without arraignment for trial of prisoners arrested for political offenses in Ireland, has not yet been presented to the Premier because of his illness, which will require him to remain in bed for a day or two longer.

Officials today were unwilling to suggest what, if any action, the Premier might take with regard to the message.

WILSON'S CHOICE AS DIRECTOR OF MINES.

Frederick G. Cottrell.

CHOOSES CALIFORNIAN TO SUCCEED MANNING.

PRESIDENT NOMINATES F. G. COTTRELL TO BE DIRECTOR OF THE BUREAU OF MINES.

(BY A. P. DAY WIRE.) WASHINGTON, May 4.—President G. Cottrell of California was nominated today by President Wilson to be director of the Bureau of Mines, succeeding Van H. Manning.

OAKLAND, May 5.—Frederick G. Cottrell, prominent mining engineer of this city and Washington, D. C., who was nominated today to be director of the Bureau of Mines, has been with the bureau since 1912. He is a graduate of the University of California and for a time was assistant professor of physical chemistry there.

He was known nationally for his work in developing the electrical precipitator to reduce dust and smelter fumes and for the bureau of a process to recover helium from natural gas. Helium now generally is used in the inflation of dirigibles.

Cottrell served successively as chief metallurgist and assistant director of the Bureau of Mines.

SURVEY IS PLANNED FOR IMPERIAL VALLEY.

INTERIOR DEPARTMENT TO ACT AS SOON AS WILSON SIGNS MEASURE.

(REUTERS DISPATCH.) WASHINGTON, May 5.—Agents of the Department of the Interior have received instructions to undertake a survey of the Imperial Valley after President Wilson attaches his signature to the bill passed by Congress this week.

The bill reached the White House this afternoon, and it is expected it will become a law within a few days. This survey is intended to furnish Congress with authoritative information as to the feasibility of irrigation plans submitted by the Reclamation Service and various irrigators.

The first step toward the complete irrigation and development of the Imperial Valley. The Interior Department in its report will recommend what part of the cost of the improvement shall be paid by the United States and what part borne by the irrigation district, association and individuals.

As soon as the report is made today, Senator Frank P. La Follette introduced a bill for the government appropriation.

JOHNSON LOSES IN THE COUNTY.

(Continued from First Page.)

Evening Express for opening their columns to our publicity during the campaign. There is less disgrace in losing in a fight for a League of Nations than in a man like Herbert Hoover, who has been in a fight for a better end.

Mrs. Burdette, one of the Hoover delegates, said that she would occupy a seat in the Chicago convention, despite her failure to win a delegate's badge. "By connection with the national committee gives me a seat in the convention, although not a vote," said Mrs. Burdette. "And I shall be right there to cheer for Hoover. Of course, I shall be disappointed that California's banner cannot be carried in the parade of States for Hoover, but we can all work for his election in November."

Mrs. Burdette, like Ralph D. Arnold and many other Hoover supporters, will carry their fight to the convention, undeterred by Tuesday's defeat, which they insist on claiming as a moral victory.

Senator Johnson divides the honors of the victory with the nine millionaires who have been cast in the State; and reports from different sections indicate that two-thirds of those who were invited because of a fallacy of modern politics that millionaires do not run well. But the results of Tuesday prove that they are not so invulnerable as they seem to get the vote out. For most of them ran ahead of the average elector on the Johnson ticket and the primary vote was something worth precedent. It would not be surprising if the Johnson ticket were much in demand for candidates in future campaigns.

Not more than 18,000 Democratic votes have been cast in the State; and reports from different sections indicate that two-thirds of those who were invited because of a fallacy of modern politics that millionaires do not run well. But the results of Tuesday prove that they are not so invulnerable as they seem to get the vote out. For most of them ran ahead of the average elector on the Johnson ticket and the primary vote was something worth precedent. It would not be surprising if the Johnson ticket were much in demand for candidates in future campaigns.

HOOPER WILL WIN.
The fate of the candidacy of Henry M. Childers of this city, the independent candidate, who was defeated in the Johnson ticket and the primary vote was something worth precedent. It would not be surprising if the Johnson ticket were much in demand for candidates in future campaigns.

INDIANA MACHINE FOOLED.
EVANSTON, Ill., May 5.—The Evansville Courier says: "At the last moment the county machine tied up their Governor's candidacy with the popular vote of Hiram Johnson in a desperate attempt to save the day here."

The machine was unable to help others in this county than he was to help Hughes in California. The machine was unable to help others in this county than he was to help Hughes in California.

WOOD LEADING IN INDIANA.
(Continued from First Page.)
how, within the limits of human possibilities, the war could have been won more promptly and with less loss of American life.

BOOGERS FOR EDWARDS.
(BY A. P. NIGHT WIRE.) TRENTON (N. J.) May 5.—Declaring the great unrest in the country, the Democratic party in New Jersey was due directly to prohibition, James R. Nugent of Newark, one of the party's leaders, said today at a meeting of the Democratic national delegates with Capt. Leonard Wood, who is here today vigorously attacked the Democratic party's leadership.

The victory of Wood, moreover, does not mean that either Harding or Lowden must be regarded as eliminated from the race. It only means that Johnson is thus far discredited, but the question whether Wood is the most available candidate is still open to solution.

NEW YORK, May 5.—The New York Times says editorially: "In California, Senator Johnson (feeling described by San Francisco Chronicle as the great champion of constitutional Americanism) won a signal victory over Mr. Hoover."

Even though the Republican women are disgusted at the antics of the Republicans. "But there are things in the Democratic party which the women of Wisconsin will not stand for. If you put a plan in the platform at San Francisco which gives light beer and wine or makes other concessions to the women, the women will not vote for the Democratic party."

RESOLUTION TO RATIFY SUFFRAGE AMENDMENT.

DELAWARE SENATE ADOPTS MEASURE WITHIN MONTH OF ELEVEN TO SIX.

(BY A. P. NIGHT WIRE.) DOVER (Del.) May 5.—A resolution to ratify the proposed Federal woman suffrage amendment, which had been in committee since March 24, was adopted by the Senate today upon a vote of 11 to 6.

Only two Republicans voted against the measure and but one Democrat supported it. Suffragists held a demonstration in the Senate chamber after the vote was announced.

It is proposed to send the resolution to the House tomorrow, where a speedy action is expected. Although the lower branch of the Legislature defeated a similar resolution April 12 to 3, suffragist leaders assert they have increased their strength sufficiently to assure concurrence of the House.

Anti-suffragists deny this and declare sentiment in the House against ratification is as strong as ever.

WASHINGTON, May 5.—Resolutions urging the Delaware Legislature to ratify the suffrage amendment were adopted tonight by the Republican Congressional Committee and transmitted to the Speaker of the House at Dover.

Republican members of the House were requested to fall in line and make Delaware the thirty-sixth State to ratify.

(Continued from First Page.)

a stand against the rebels and also at Torreon, south of Chihuahua. Officials here said they expected the first battle of the revolution to be fought at one of these cities.

While Carranza has progressed this far without a clash of any size, none here is so optimistic as to expect Carranza to have control of all Mexico without bloodshed. Rebel officers said President Carranza would attempt to make a showing of military strength at some place where he believed chances for success favored him and would not endanger his rebel army until certain of victory. Loss of one big battle early in the revolution, they said, would lose him much prestige and territory.

MORELOS IN REBELLION.
(BY A. P. DAY WIRE.) EL PASO, May 5.—The entire State of Morelos is in the hands of the revolutionists, according to advices received here. Carranza's army, under the command of Gen. P. Elias Calleja, commander of the revolutionary army of the north.

Two battalions of Federal troops stationed along the Interoceanic Railway line, running from Mexico City to Antigua, Vera Cruz, on the Bay of Campeche, have revolted. It was reported that the rebels had taken possession of the city of Oaxaca.

UNABLE TO CONFIRM REPORT.
(BY A. P. NIGHT WIRE.) EL PASO, May 5.—Obregon leaders in El Paso were unable to confirm the report that Villa had joined forces with the revolution. Arturo Elias, chief of Gen. Calleja's forces, who conducted negotiations for the revolt of the Juarez garrison, said the report probably was true, and that in all probability they would be accepted by Gov. de la Huerta. He said he did not think Villa would be intrusted with command.

DESTROYERS TO MEXICO.

WASHINGTON, May 5.—Secretary Daniels today ordered a division of destroyers, now at New York City, to be sent to Mexico. He immediately for Key West, where they will be held for possible duty in Mexican waters.

The destroyers are commanded by Capt. Byron Long on the tender Black Hawk, which will accompany the Atlantic Fleet. The ships are to be ready to sail today.

The Secretary said today that Capt. Long had been given full instructions as to the policy to be pursued in the event it becomes necessary to send the destroyers to Mexican ports.

RAPID DEVELOPMENT.
Development of the revolution, as reported by the press, has been so rapid as to convince many officials, especially army officers, that Carranza cannot maintain his authority much longer, not so much because he is opposed by a formidable military force as because he commands an army that is disloyal before the rebels' advance.

Information through official channels has been the basis of an estimate that places the strength of the rebels at almost double that of the government. The co-ordination of the rebel forces has been hindered rather than aided by the rapidity with which new groups form in the different States and the promptness with which the Federal garrisons have joined in the movement even without being asked.

Rebel assertions that Carranza would have difficulty now in leaving the country are supported by reports from Federal sources.

APPOINTED AGENT.
(BY A. P. NIGHT WIRE.) NEW YORK, May 5.—Ramon de Negri, until recently Mexican Consul-General in New York, under President Carranza, announced here tonight that he had been appointed commercial agent of the Mexican revolutionary party by Gov. de la Huerta of Sonora, provisional civil head of the Liberal Constitutional forces, now seeking the overthrow of Carranza.

Mr. de Negri announced he would leave immediately for Sonora to confer with the revolutionary leaders, but had made provisions to open the new agency before his departure.

In a statement given out simultaneously with announcement of his appointment, Mr. de Negri outlined the policy of the revolutionary party.

BARGAINS GALORE

The Most Accommodating Man in Town says—

"Nevermind, I'll Replace It With Tea That's 'Packed Only in TIN—To Keep The Flavor (and Contents) In.'"

DID you ever consider the lot of the man who supplies practically 90% of your edibles? Think of the long tedious hours—and then, often complaints for which the grocer is not responsible.

In the past two strenuous years his trials have been magnified. Government restrictions hampered his business. Goods have been hard to procure. Help scarce.

Besides this, frail packages—the cause of many complaints—meant a loss to this man who serves you—and a nuisance, inconvenience and loss to the housewife.

On the other hand, for years Ridgways Tea has stood the test of satisfaction in America—84 years in England. It comes to you in TIN—in the same form that Queen Victoria demanded.

It is the choice of particular people in all walks of life.

It is especially vouchered for by your grocer—"the most accommodating man in town."

Ask him for the best TEA.

"Packed only in TIN—to keep the flavor in."

Ridgways INDIA-CEYLON Tea

R. A. NEWMARK & CO., Distributors.

CANADIAN ROAD ANNUAL MEETING

Gross Earnings for "C.P.R." Biggest Recorded.

Net Earnings, However, Were Less than Formerly.

New Irrigation Projects to Speed Immigration.

(EXCLUSIVE DISPATCH.) MONTREAL, May 5.—At the annual meeting of shareholders of the Canadian Pacific Railway, held here today, Mr. E. W. Beatty, president of the company, stated the annual report reflected vividly the situation prevailing in respect to increased cost of operation. Gross earnings were the largest in company's history, exceeding 1918 by \$19,391,362.

Yet, the net earnings were less by \$1,569,351. The large increase in working expenses, showing total increase since 1917 of \$33,184,709, is a striking example of effect of increased cost of wages and material. In spite of company's conservative economic administration. It is gratifying that even with these exceptional costs the company has during the past two years earned fixed charges and usual dividends. Nevertheless, relations between earnings and expenses must now receive most careful consideration. The upper trend in cost of the last two years has not been equaled by increases in gross earnings and operating economies. The extent of the rate increase fixed by the Dominion Railway Commission has not equalled the increased cost recently forced on all companies. Between 1914 and 1919 working expenses of the company have climbed from \$7,338,000 to \$14,400,000, an increase of 64 per cent.

Within the same period increases in freight and passenger rates amounted in actual fact to 30 per cent in freight rates and 10 per cent in passenger rates. Thus, during the past five years percentage increase in operating expenses was double the percentage increase in tolls accorded to railway companies.

AFFECTED BY AMERICA. Owing to the parity of conditions existing between United States and Canada, Canadian roads during the war had to accept high wage scales made effective under government control of American roads, and also to continue operating under similar tariff tolls. These tariffs were entirely inadequate, as results in the United States clearly demonstrated. Recent legislation has assured American carriers of rates which will return a fixed percentage on value of undertakings used in public service. This will mean reconsideration of and increases in rates now current in the United States.

No doubt necessity of rate advance will be given earnest consideration by government and Dominion railway boards. Such adjustment is amply warranted both on the ground of value of service rendered by the carriers and the cost to them of performing such service.

Rates in Canada should be determined with regard to cost and value of services and legitimate needs of railway companies. Property of the Canadian Pacific is in excellent condition, and at no time in its history has it been better equipped to perform its important public service or to play its full part in advancement of transportation future of Canada.

NEW PROJECTS. Irrigation projects in Alberta have developed 643,526 acres by means of 3949 miles of irrigation ditches at construction cost of \$15,144,449 and operation cost of \$1,761,368.

Success of irrigation will, it is hoped, lead to expansion of irrigation projects under Federal or Provincial governments, thereby diminishing danger of crop failures in irrigated districts.

The status of any enterprise depends on its ability to progress and on maintenance of high credit necessary to development. Railways must be enabled to keep pace with the progress of the country. By expanding facilities, constructing necessary new lines, and supplying the public with adequate efficiency and comfort in service, Railway net earnings of the company for 1919 returned a return of only 4 per cent on actual cash invested in railway itself. The nominal surplus of \$844,248 has been placed in reserve to meet special taxation imposed by Dominion government.

Fixed charges and interest on preference stock of the company are low, and a dividend of 7 per cent, payable on common stock from railway earnings, is moderate. Any corporation conducting so extensive an enterprise must have reasonable surplus, yet surplus after deduction of fixed charges and dividend amounted to less than one-half of 1 per cent of gross earnings.

Revenues, therefore, during the past two years are obviously inadequate. Rates should be established which represent a fair return for service rendered, profits earned by company's efficiency, and economy. Equipment and facilities should not be confiscated, nor should revenues accruing to one company from service well performed be taken to supplement the revenue of competitor less successful.

Theory that rates be not increased, but that deficits be met from general revenues of company is economically unsound and discriminating against the public in favor of those using railway facilities. The company's equipment trust issue of \$12,000,000 was secured at highly favorable interest rates. Amendment to company's charter permitting rate increase of number of directors from fifteen to eighteen is purely a covering device.

EXPECT IMMIGRATION. Immigration to Canada is anticipated on a large scale, and while rearmament and financial conservatism are wise, the company's directors have the same implicit faith in the future growth and prosperity of the country as before, and same confidence in the company's ability to play an important part in its development and prosperity. Four retiring directors, Sir John Eaton, Mr. Grant Hall, Sir Vincent Meritt Hart, Sir Augustus M. Hatten, were re-elected.

At a meeting of the board subsequently held, Lord Shaughnessy was elected chairman, E. W. Beatty, president; Grant Hall, vice-president; and executive committee was appointed as follows: Richard B. Angus, E. W. Beatty, Grant Hall, Sir Herbert S. Holt, Sir Edmund B. Osler, Lord Shaughnessy.

Thirty-three Per Cent Dividend. (BY A. P. DAY WIRE.) NEW YORK, May 5.—A stock dividend of 33 1/3 per cent was declared today by the Chandler Motor Company.

BISHOPS CALIFORNIA FRUIT CHOCOLATES

In oval tin container. Each piece foil wrapped. A new treat. Fine for auto trips.

NAVY WILL OVERHAUL THE GREAT NORTHERN.

(BY A. P. DAY WIRE.) VALLEJO, May 5.—Navy yard officials at Mare Island announced today that the first railroad train would be sent over the causeway between the navy yard and Vallejo, June 15. Trains from the East after that date can deliver material to the yards direct.

The navy yard today received authority from the Navy Department to overhaul the liner Great Northern at a cost of \$150,000. The vessel will be brought into dry dock next week and will remain in the yard until June 15.

Rare Book Collector Dies. (BY A. P. DAY WIRE.) PHILADELPHIA, May 5.—William Supple Lloyd, 60, textile manufacturer, clubman and collector of rare books, died today.

"DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any andruff, besides every hair shows new life, vigor, brightness, more color and thickness.—(Advertisement.)

FITZGERALD MUSIC CO. KNABE AMPICO Reproducing Pianos

HILL STREET AT 727-729

The Fitzgerald Music Company cordially invites you to hear the

"Amazing Exactitude"

—with this forceful expression. Florence Lawrence, the able critic of the Los Angeles Examiner, described the Knabe Ampico's reproductions of Leo Ornstein's playing at Trinity Auditorium Tuesday night, when the great pianist personally appeared before an audience of several thousand people.

Miss Lawrence said:

"Last night's program revealed alike the impeccable technique and unusual interpretative skill of the soloist and the marvelous tonal possibilities of the instrument which reproduces with such amazing exactitude his quality of touch, shading and individuality."

In the same records of Ornstein's playing that delighted the great audience Tuesday night—also to hear Knabe Ampico reproductions of the playing of many other world-famous pianists.

To Close a Trust

Northwest corner Seventh and Bonnie Brae, 150x140 feet. Only \$550 a foot, including \$15,000 improvement. That is a low price for the ground alone. You get the improvements for nothing. One of the best corners in the Seventh street-Westlake district, aside from Alvarado itself. Temporary improvements on the unimproved half will return a good income. Future guaranteed by present development. Fine site for family hotel or large apartment building with stores on ground floor. Or for large garage of several stories, or automobile sales or accessories. Large amount of ground floor space good for wide range of stores and shops. Space above the ground floor worth practically as much as any location in the city. Open three sides. East and south exposure. Eighteen-foot paved alley on west side. Two and a half million dollar Ambassador Hotel, now building, will be one of the leading high-class tourist hotels of the United States and the social center of Los Angeles. Already leading high-class apartment-house center. Because of lay of ground, traffic from social center to business center must flow principally through Seventh street. Where the traffic flows the business goes. A constantly increasing amount of business will remain near the Westlake end of Seventh street as the shops there multiply and down town congestion increases. Seventh street is rapidly filling up with business and will be so used all the way to Westlake Park. To close a trust this property will go at \$82,500. If this were an individual holding you might have to pay \$100,000. A clean, high-class, safe and profitable investment.

CALOMEL DANGER TOLD BY DODSON

Says You Cannot Gripe, Sicken, or Salivate Yourself if You Take "Dodson's Liver Tone" Instead

Calomel loses you a day! You know what calomel is. It's mercury; quick-acting. Calomel is dangerous. It cramps into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not sicken.

Don't take calomel! It can not be trusted any more than a leopard or a wild cat. Take Dodson's Liver Tone, which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

NO DEPORTATION FOR COMMUNISTS

Secretary of Labor Delivers an Important Ruling.

Membership in Party not Sufficient to Deport.

Department of Justice Explores the Decision.

(BY A. P. NIGBY WIRE.)
WASHINGTON, May 5.—Secretary of Labor Wilson ruled today that membership in the Communist Labor party does not of itself constitute sufficient ground for deportation of aliens.

In ordering cancellation of a warrant under which Carl Miller, a German, was held because of such membership, the Secretary declared that while extracts from the organization's platform indicated an extremely radical objective there was no evidence of intention to use force or violence toward organized government.

The Department of Justice frankly deplored the Labor Secretary's decision, Asst. Atty.-Gen. Garvan asserting that because of it all undesirable aliens could enter the fold.

DYED HER. BLOUSE, SKIRT AND A COAT

"Diamond Dyes" Turned Faded, Shabby Apparel Into New.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Direction Book with each package tells so plainly how to use Diamond Dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.—[Advertisement]

How Thin Folks Can Put on Flesh

If you are weak, thin and emaciated, no matter how much you eat, go to the Sun Drug Co. and get enough Blood-Iron Phosphate for a three weeks' treatment and take it as directed. If at the end of three weeks you don't feel stronger and better than you have for months; if you don't have more energy, your nerves steadier; if you don't sleep better, and your vim, vigor and vitality aren't more than doubled, or if you haven't put on several pounds of good play-there flesh, you can have your money back for the asking and Blood-Iron Phosphate will cost you nothing.

IMPORTANT—Blood-Iron Phosphate is sold only in original packages, containing enough for three weeks' treatment, at \$1.50 per package—only 50c a week.

of the Communist party and be free from government interference.

"Excerpts from the Communist Labor party platform and program indicate an extremely radical objective," said Secretary Wilson in a review of the case, "but there is nothing in them that discloses an intention to use force or violence, or that is incompatible with the use of parliamentary machinery to attain the radical view that is expressed."

"The belief in teaching and advocacy of the class struggle, mass action, the conquest of political power, the dictatorship of the proletariat, Socialism, Communism, the One Big Union, shop committees, shop stewards and other social, industrial, economic and political changes named in the Communist platform and program, however repulsive they may be to the minds of our people, do not bring the organization within the purview of the act as long as it does not propose to use force or violence to accomplish its purpose."

"If the American people are left free to discuss and decide the question for themselves, from day to day, uninfluenced by the threat of force or violence, they can be relied upon to protect themselves against any false philosophies, wild-eyed revolutions or dictatorships of any kind."

Commenting on Secretary Wilson's labor ruling, Asst. Atty.-Gen. Garvan said it meant that he could "advocate revolution and keep on advocating violence with perfect impunity unless Congress changes the law."

Mr. Garvan said that until Atty.-Gen. Palmer had had an opportunity to study the opinion in the case, the department's course as to future action against radicals could not be determined.

The Department of Justice said of last January disclosed membership of the Communist Labor party to be between 50,000 and 60,000. Mr. Garvan said. But he did not believe these figures indicated the actual strength of the group, nor did he did they reveal anything "as to the number of Bolsheviks which will flock to the haven created by the latest ruling."

Mr. Garvan declared the Department of Labor about had released about 1600 members of the Communist Labor party who were taken in the January raids and that warrants in the case of about 200 others would be cancelled as a result of the ruling.

Chairman Johnson of the House Immigration Committee declared tonight that Congress, in passing the law to deport undesirable immigrants, intended to reach the very element which Secretary Wilson held did not come within its scope.

"If the Senate will pass the alien deportation bill, which the House passed without a dissenting vote, December 20, last," Mr. Johnson said, "we will be able to reach those aliens here who talk about revolution by ballot when they cannot vote, and who, when they say ballot, mean bullet."

ATTORNEY DECLARES CHARGES UNFOUNDED.

COMELY YOUNG WOMAN FIGHT EXTRADITION TO FLORIDA; DECISION TOMORROW.

(EXCLUSIVE DISPATCH.)
SACRAMENTO, May 5.—A hearing was conducted in the Governor's office today before Warren Bovard, executive secretary to Gov. Stephens, in the case of Miss Laura Thompson, charged with grand larceny, and Miss Emily Hess and Charles Reader, charged with receiving stolen property, all of whom were arrested in Los Angeles on warrants from Miami, Fla., and for the extradition of whom papers are being sought. All three are out on bail.

Miss Thompson and Miss Hess, comely young women, appeared at the hearing with their attorney, Arthur G. Webb of Los Angeles. Webb declared the charge against Miss Thompson is that she stole three railroad tickets, from Miami to Los Angeles, from the Florida East Coast Railroad, by which company she was formerly employed and sold two of them to Miss Hess and Reader.

Webb said the tickets were purchased through Miss Thompson and the money turned over to the company before she resigned her position as ticket agent and came to California with Miss Hess and Reader.

In presenting his case, Webb declared the trio were arrested by Federal officials upon their arrival in Los Angeles and held a day in jail pending investigation on a charge they had violated the Mann White Slave Act. The investigation cleared them, he said, and after they were released the three were arrested on the warrants from Florida. Webb asserts there is no foundation for the charges that Miss Thompson and Miss Hess are members of respectable Southern families, and Reader is a musician in a Los Angeles theater. He stated the young women came to California on a pleasure trip.

The matter of the application for extradition papers was taken under advisement by Gov. Stephens, until tomorrow.

Dismiss Syndicalism Charges.

(BY A. P. NIGBY WIRE.)
DETROIT, May 5.—Charges of criminal syndicalism against William C. Chabert, president of the Detroit Yardmen's Association, made by two detectives, were ordered dismissed by Municipal Judge Stein today, upon recommendation of the prosecutor's office.

The carriers are expected to return to work by July 1st.

The union leaders are expected to lead a large demonstration in front of the postoffice tomorrow.

DIVORCE SUITS AT TOP NOTCH.

Misplaced Spring New Record Here; Notable Jump Shown in Few Years.

Everything's going up now, including the number of divorce suits filed in Los Angeles.

Papers in twenty-nine cases were filed in the office of the County Clerk yesterday.

The figures are twenty and over. Los Angeles is becoming known as one of the divorce capitals of the country.

WOULD DIVORCE SPANISH COUNT.

Reno Senator's Former Wife Suing D'Aleria Here.

Whirlwind Musical Romance Ended in Three Months.

Their Regal Country Estate at Monrovia Deserted.

The Countess d'Aleria, who was the widow of the late U. S. Senator George S. Nixon of Nevada and who, charmed by musical ability and won by an ardent courtship, recently married the Count Armand d'Aleria, a wealthy Spanish nobleman, yesterday filed here, through Attorney W. I. Gilbert, a suit for divorce.

The Count and Countess d'Aleria were married three months ago by Justice of the Peace Jenkinson at San Diego. Before the wedding Mrs. Nixon resided at 381 Palm street, Alhambra, and the Count occupied bachelor quarters at the Alhambra Club. Professionally he is known as Harold Adrian and is a writer as well as a musician.

Their courtship was rather a whirlwind affair and their marriage a genuine surprise to Pasadena society. After coming into considerable money through the death of a cousin at Barcelona, Spain, the Count laid siege to the attractive widow's heart and finally won it. Their acquaintance began while he was filling an engagement at San Francisco. She was residing there at the time and after hearing one of his programmes, prevailed upon him to go to Reno and become pipe organist in her theater. Later they were seen much together in society at Pasadena and the marriage followed on February 2 of this year.

After the wedding the Count d'Aleria purchased for his bride Los Illos Rancho near Monrovia, and arranged to take down the old adobe house and erect on the site a wonderful adobe palace, which was to have an immense music-room and to be ornamented with a wrought-iron grille gate that he expected to bring from Spain. This unique nature was said to be 100 years old. Last night Monrovia stated that the Count and Countess had gone away. Mr. Gilbert could not be reached.

Before her second marriage Mrs. Nixon was a well-known figure at Reno, San Francisco and Pasadena. She is the owner of residences in all three cities and holds numerous business blocks in Reno as well as a newspaper and a theater there.

How Close Bluebeard Watson Came to not Coming Back.

Angry Crowd Which Menaced Watson at El Centro Tuesday Night (top). This picture is a flashlight made by Times Photographer George R. Watson as the crowd was advancing, with cries of a lynch him on the car supposed to contain the prisoner. Below is a view of the dramatic scene on the hillside when the wife-murderer was taken to the El Centro Jail. Watson (looking toward the camera). At his left are Deputy Sheriff Bell, Deputy Cummings of Imperial county and ex-Police Commissioner William Reams of El Centro.

Through the filing of a petition with the City Council yesterday afternoon, it became known that a syndicate of Los Angeles men is seeking a forty-five year lease to the underground rights to Pershing Square, that an underground garage and auto park may be constructed, with capacity for 3000 cars.

The syndicate filing the lease petition is headed by R. H. M. Burdick, president of the American Engine and Airplane Co. In the syndicate are T. H. W. Liddecoat, fruit and vegetable shipper; Sydney B. Brown, land owner; John F. Manning, attorney; Benet Smythe, who founded the annual farm tractor demonstrations in Southern California, and who will be chief engineer.

The legality of the lease has been investigated and passed on favorably, according to the proponents of the scheme, even the City Attorney's office finding no reason why the lease could not be authorized by the City Council. The park land is part of an old Spanish pueblo grant that was ordered sold by the city in 1868 in city lots, with the exception of the acreage reserved for park purposes.

IN NINE MONTHS. With the lease granted construction work would be done in two sections, keeping half of the park in public use, the promoters state. The

total excavation would be fifty-eight feet, allowing eight feet of surface soil above the three subterranean floors. Each floor would have a capacity of about 1000 cars. Spaces for gas, oil, tires, and accessories stations would be reserved. The subterranean entrances would be covered by platforms dedicated to park uses, bandstand, open aviary, and possibly for automobile shows, etc. It is stated, M. J. Wilcox, the engineer, states that the underground garage could be completed in nine months, working two ten-hour shifts.

The first floor of the underground garage, even the city's playground, could be utilized for big public affairs at night, for public meetings, and for technical displays. The underground garage would be completed in nine months, working two ten-hour shifts.

Mr. Burdick, head of the syndicate, said yesterday: "While we realize the plan is unique, it has been found feasible. From the engineering and financial standpoints, and has been endorsed by some of the best business men and engineers in the city."

MONEY FOR CITY. "With the lease granted the subterranean garage would pay a certain fixed percentage of the gross revenue to the city as lease rental, and at the end of the lease, the garage would be owned by the city. A bonding house has passed favorably on the proposition of selling a bond issue for the construction cost, which

(Continued on Tenth Page.)

BODY POINTS TO MURDER.

Remains of a man discovered in Eagle Rock Park Monday night and later removed to an undertaking establishment in Pasadena were identified yesterday afternoon as those of Jacob Miller, who disappeared from 627 San Julian street, this city, April 2.

Identification was made by officers of the Los Angeles police department, who had been searching for Mr. Miller since his disappearance. The man came to his death by a bullet wound in his left temple and the officers are of the opinion that he was murdered.

It is recalled that the day of his disappearance he was supposed to have had a large sum of money in his possession. Early that evening he was seen with a strange woman in front of the apartment-house on San Julian street, which he had purchased that day. In his room were found a woman's handbag, powder-puff, gloves and other articles of feminine apparel.

Several days after he had been missed a woman visited the apartment and inquired for Mr. Miller, saying she was his sister, Mrs. Schroeder, landlady and former owner, replied that she did not know what had become of the new proprietor of the place, but that she did know he had no sister. The woman disappeared and has been hunted by the police ever since.

Another, John Miller of San Francisco, has been in Los Angeles several weeks, helping the officers in their search for the missing man. He has gone to Pasadena to claim the remains.

POPULAR DEMAND ARISES THAT WATSON BE HANGED

Opposition to Reported Compromise to Save Bluebeard's Neck is Voiced by Prominent Citizens Here.

Coincident with the announcement yesterday that the county grand jury will today be asked to indict James P. ("Bluebeard") Watson, and that he will then go into court and plead guilty, without an extenuating insanity plea, to first-degree murder in the expectation that he will be given only life imprisonment under the terms of what is generally understood to be an agreement with the authorities, made in consideration of his confession, strong popular protest was expressed here against any compromise with the archcriminal and a demand voiced that he pay the extreme penalty for his multiple wife murders.

The fact of this compromise has been widely published and now denied by either side—in fact, all available indications have tended to confirm it. Dist. Atty. Woolwine, apprised of the state of the popular mind, said last night that he is unable to comment on the situation at this time.

In receipt of many communications by telephone and letter protesting against any arrangement whereby Watson may partially escape justice, The Times yesterday asked a number of prominent and representative men and women for their views on the subject. These follow:

PROTEST COMPROMISE. Dr. George F. Howard, president of the University of Southern California, said: "I do not like that kind of business, that is, letting a man of Watson's caliber escape the death penalty after it has been proven that he has brutally slain at least two women. Though there seems to be some doubt that the man is sane, I do not think Watson is a victim of that insanity which he says he is. I have never before taken enough interest in such cases to believe a man should be given the death penalty for taking another person's life, but here is a man who deserves such a penalty if there ever was one. I think he ought to be put away where he will never again be a menace to humanity, but an asylum or a penitentiary is not the proper place to put him."

Jackson A. Graves, vice-president of the Farmers' and Merchants' National Bank, said: "Watson should be hanged. There should be no compromise. To compromise with a man who has committed the deliberate crime he has an outrage on justice and decency. If he isn't hanged we might as well do away with the death penalty. It is making a joke of justice."

Arthur Letts, proprietor of the Broadway Department Store, said: "I don't need to ask you that question if you know where I was born. I am bred in an Englishman never to compromise with law. There's too much of this thing of trying to get men off on plea of insanity and technicalities. There were more rigid enforcement of the law there would be less crime. Watson should be hanged."

William M. Garland, leading realtor and former president of the National Association of Real Estate Exchanges, said: "Hanging too good for Watson. He should be perished with a Gatling gun. A man like that should not be permitted to live. Boiling oil would be much sadder justice than a compromise. I do not believe in capital punishment, but if there ever was a human being who should have been put out of the world for his own sake, as well as the world's, it is he. I do not know that there has been a compromise, of course, but if there was one I have no doubt that it was a reason for it. If the minds of the living, the relatives of women who married Watson, were relieved by his confession, the facts could not be ascertained any other way. I would consider the compromise justifiable for the right it would do the living. I believe that such a creature should be put out of existence. There were some good men who were let off by him."

Mrs. Kathryn Wambacher, Watson's Los Angeles wife, said: "Watson should hang. If he does not hang he will escape through a legal loophole which he so cleverly helped to construct with his cunning. I think, if a compromise has saved him from the gallows, hanging too good for him. He should be perished with a Gatling gun. A man like that should not be permitted to live."

Mrs. Kathryn Wambacher, Watson's Los Angeles wife, said: "Watson should hang. If he does not hang he will escape through a legal loophole which he so cleverly helped to construct with his cunning. The People and Their Daily Troubles

OROTHY DIX TALKS PARASITIC SONS.

BY DOROTHY DIX.

Among my acquaintances is a family which consists of a mother and her three daughters and one son. The girls are all in business, and every Saturday night turn in their unopened pay envelopes to their mother. That supports the family. There is no other income.

The son, a big husky young fellow with plenty of intelligence, who is ten times as able to work as his sisters and who could earn twice or three times what either one of them does, works only when the spirit moves him. Which is seldom.

He doesn't have to work. He doesn't really need to because whether he works or not, he is sure of three good meals a day, better than his sisters get, for mother saves up the tidbits for him, a good place to sleep, and a little pocket money for which he can always stand mother up.

The sisters are really very much outraged at this state of affairs, but when they protest against it, and tell their mother that they do not feel called upon to support a lazy loafer, even if he is their brother, the mother turns upon them in fury and demands to know what sort of money they are talking about.

They beguile their poor brother with a bit of food and a place to lay his head. Then she weeps and says that she will never turn her own son out of her house and shut her door in his face; that as long as she has a crust she will divide with him, and give him her last penny.

So the scene ends, and when the parasite son comes in, mother sneaks him up something extra to make up for the way his mean sisters treat him in not being willing to support him. Then she gives him the last of the housekeeping money, and runs an account with the grocer which the girls have to pay in the end.

"And what are we going to do about it?" inquires the girls. "We love our mother and hate to hurt her, but we feel that it is neither right nor just for three frail, delicate women to have to support an able-bodied man, and be able to lay up nothing for the future because of their excess earnings go to pay for his excesses."

Of course, it is neither just nor right, either to the girls, or to the boy for that matter, for their mother to take their money to keep him in idleness, but how anybody is going to get justice out of a woman where her idealized son is concerned is a problem far beyond my poor ability to solve.

Bloomsbury tell us that mothers cannot help loving their sons better than their daughters and having a different feeling towards them. It has something to do with a boy inheriting more from his mother than his father. Anyway, they say that it is a fixed law of nature, and the mothers cannot help it, poor things, since loving is not a matter of volition, but of some mysterious attraction that we can neither understand nor explain.

Perhaps this accounts for the case cited above, and a hundred similar ones that each of us can recall, in

survives, and that is parasitism on a woman. A man may climb up from any other pit, but whenever he sits down idly and lets some woman work to feed and clothe him he has descended to the last depth of degradation, and there is no hope of his ever being rescued.

It is for a mother who has a son to see that he is saved from being this contemptible weakling by raising him up to feel that he must take care of his sisters, not that they must support him. And if he is cursed by lack of energy, and a yearning for self-indulgence, she should force him to depend on himself by refusing to shelter and feed him. For even the laziest will work rather than starve.

As for a mother taking her daughters' money to give to a parasite son, it is a diabolical thing to do. The thin pay envelope of the working girl is a trust of honor that mothers should use wisely and well for the girls' individual benefit and benefit.

To Camera Club.
John C. Stick will speak on "Photographic Chemistry" at a meeting of the Southern California Camera Club at 8 p. m., today in Room 523, Wilcox Building.

LETTERS TO "THE TIMES."

Where Does the Money?

LOS ANGELES, April 14. — [To the Editor of The Times:] If the City Council by ordinance made and provided levies a head tax of one dollar on roosters kept in the city limits, what disposition will be made of that dollar? Will it be turned into the school fund, the road fund, or will it be divided among the population within the range of the said rooster's voice? I beg to suggest the creation of a special educational fund to be used to teach some people lessons of consideration for the feelings of their neighbors, but on second thought, I doubt if the rooster tax would go very far along this line.

I have no special grudge against roosters, but rather against their owners, for I cannot understand what warrant anyone has to keep a dog of any description that annoys and disturbs their neighbors.

I hold a special indictment against two birds in my neighborhood. One is rather close in and poses a voice strongly resembling a fog horn of high power and when he cuts loose about 3 a. m., I wake with the impression that a "Jack Johnson" has exploded in the back yard, or that Southern California is being visited by a first-class earthquake.

This bird is a vigorous cun and is evidently in prime training for he holds out for an even five minutes on a ten-second schedule, after which he rests up till 5 a. m. when he repeats the concert.

The other bird is some distance farther away, and has a high-pitched tenor voice, of rather low volume, but high penetration, and he never fails to join bird No. 1 in the morning concert, and generally has the last word.

One of my neighbors tells me he is fast becoming a mental and physical wreck on account of these birds, and says doctors and medicine fail to do him any good. His physician advises him to rent a cave in some lonely part of the

San Bernardino Mountains, but his wife objects and suggests he write the rooster's necks as a solution of the problem.

What sense is there in passing an ordinance to tax roosters? If the levying of the tax would put a clapper on the crow there would be some sense in the tax.

One of my neighbors tells me I am altogether wrong in my ideas as to the power of the City Council, for he says there is wisdom enough to pass an ordinance that will do away with the whole nuisance. I don't quite get his point, but he says they can pass an ordinance that when read to a rooster—like reading the Riot act to a mob—will silence the chattering for all time. He says he knows what he is talking about, for he is personally acquainted with several Councilmen.

However, I am willing to accept almost anything to get quietness in the early hours of the morning, and if no other way can be found, how would it do to pass an ordinance to prohibit roosters from crowing?

KEDILAN GRACKLEY.

ly becomes virtuous! You can scarcely blame the general public for believing that there is something rotten in Denmark.

AN OLD OHIO LAWYER.

About Blood Letting.

LOS ANGELES, April 6. — [To the Editor of The Times:] Referring to an editorial appearing in the issue of The Times for the 23rd inst., entitled, "Bloodletting as a Cure for the H. C. of L.," it is disappointing and surprising to find that the editor actually seems to think the cause of high prices for food is that we have been sending such large quantities abroad that there is not sufficient for ourselves at home. Also he complains that we have not been given a square deal by Europe.

If the editor took care to study the situation at home a little more closely and at the same time to study the European side of the question, there would be no further editorials of the character of the one mentioned.

I have it on the word of men who own large ranches in Santa Barbara county that last year California produced an exceedingly large crop of beans, but when the time came for marketing them, there was no market, and the growers were left with the crop on their hands. It is stated that there actually are thousands of tons of beans grown in this State which the farmers were and still are unable to sell, and yet the price of these beans in this city is 9 cents to 11 cents per pound. Does that indicate that we have shipped to Europe so much that there is nothing left for ourselves?

As to getting a square deal: Prices are sufficiently high as it is for foreign buyers. Then add a premium of from 25 to 1500 per cent. in the way of exchange and you can understand why Europe is unable to buy from us—and pay cash—for we demand gold these days, the very lifeblood of commerce. America has become the shylock of the nation.

England is buying food from us, paying cash—as she must—and reselling to Germany and Austria on long-term credits. It is true, in these transactions with the continental nations she benefits by the rate of exchange, but she is selling under an unstable government—and may never receive her money, and if at all, not for many years. She feels it incumbent upon her to do this to save those countries from ruin, for if the continental nations go bankrupt, then England becomes a bankrupt. With the whole of Europe in economic ruin, are we self-sufficient and secure or is there not danger that the spread of anarchy and Bolshevism will reach us and burst into a conflagration that will cause the proud structure of our vaunted democracy to crumble?

We complain, indeed, of the high cost of living—but we can obtain food at a price. In England, since 1917, butter has been rationed to the inhabitants at the rate of one ounce per week per person. There is now a rumor afloat that within a few weeks or months the ration may be increased to one and a half ounces.

The editor said truly when he stated that "we putter and dawdle." If some means could be found of wresting the legislative power from the grasping fingers of a group of our "great financiers," so that some definite plan could be made for giving European merchants and manufacturers long-time credits, there would be no dam of products that were ordered for Europe and for which the orders were cancelled when the exchange fell.

I agree with the editor that blood-

letting might be a very effective economic measure, but the nation begins on the wrong foot when it starts with the general public in Europe and the general public in America. The general public in Europe and the general public in America are doing their part to support the war effort, and the general public in America are doing their part to support the war effort.

Questions Answered.

Question: How much of the world speak English?

Answer: It is estimated that about 185,000,000 people in English languages speak one-half of the world's population. United States. More than 100 million people speak English in the United States. More than 100 million people speak English in the United States.

Question: How far apart are the oceans of the world?

Answer: In midsummer a war started in the Pacific Ocean. It was a war of the air. The war was fought in the Pacific Ocean. The war was fought in the Pacific Ocean.

Question: What is the history of the United States?

Answer: The United States is a young nation. It was founded in 1776. It has a long and glorious history. It has a long and glorious history.

Question: What is the future of the United States?

Answer: The future of the United States is bright. It is a land of opportunity. It is a land of hope. It is a land of promise.

Question: What is the present of the United States?

Answer: The present of the United States is a time of great change. It is a time of great progress. It is a time of great achievement.

GASOLINE ALLEY—THE SEASON OPENS

PALMER ORDERS A SUGAR CHECK.

Sends Warning Here Against Hoarding, Speculating.

Ascribes Price Rise to Big Demand, World Shortage.

Declares Present Cost will in Time Create Relief.

In a communication received yesterday by the local Federal Fair Price Committee from U. S. Atty-Gen. Palmer concerning the sugar situation, the advancing price of that commodity is attributed to a world-wide shortage of supply and to an abnormal demand. Fair price commissioners are cautioned in this statement to see to it that a fair amount of sugar now held by the jobbers and sugar brokers is made available to the public; to watch closely for any infringement of the Lever Act, which is aimed at profiteering, and to report Washington any violation of the restriction which has been placed on the sugar refiners to the effect that sugar must be sold by the refiner direct to jobbers and brokers who are doing a legitimate business, and not to speculators.

Careful observance of these restrictions, says Atty-Gen. Palmer's statement, together with the fact that the attractiveness of the American sugar market at present and the favorable exchange rates are bringing sugar to this country from all parts of the world, will have a strong tendency to prevent the threatened shortage. The situation will also be greatly relieved, it is pointed out, when the 1920 beet-sugar crop begins to reach the market about July 15.

"The prevailing high prices," says Atty-Gen. Palmer, "will help ultimately to bring about a measure of relief by stimulating production, but the Department of Justice will protect the public against speculation and exaction of unfair profits at all cost."

The shortage is a holdover of war conditions and the presence of certain conditions brought about by the war's destruction which the brief respite of peace has not been able to cure. The European output of beet sugar is far below normal. Before the war, Great Britain drew 80 per cent of her sugar from the European supply. With that supply cut off, Britain must look elsewhere and the Cuban supply is the depot on which she must and does most logically depend very heavily.

"The Cuban crop in turn for the present is short, caused by an unexpected drought. This Cuban shortage amounts probably to half a million tons."

TO ENTERTAIN ARMY MEN.

The officers and men of the army recruiting station were yesterday invited by the management of the Superba Theatre to attend the show there this evening.

The Greatest Scenery in the World is in The Pacific Northwest Oregon Washington British Columbia

A VACATION IN YOUR HOME LAND

YOU have heard of the beauties of Switzerland and the attractions of Europe, but what do you know of the wonders and magnificence of your own home land? Are you not as much interested in America as in Europe? Spend this year's vacation in the Pacific Northwest, the World's greatest out-of-doors and you will realize what a glorious heritage is yours.

The snow-capped mountains, ocean beaches, inland seas, apple groves, primeval forests, enchanting lakes, thirty-eight golf courses, fifteen thousand miles of scenic highways, and the cool, sunny climate of Oregon, Washington and British Columbia lure you to a vacation more restful and enjoyable than can be had in any other part of the World.

Write for Free Illustrated Booklet to any commercial organization in Oregon, Washington or British Columbia, or to Herbert Cuthbert, Secretary, Pacific Northwest Tourist Association, maintained by government funds to give free information. L. C. Smith Bldg., Seattle.

Borden's THE IMPROVED MALTED MILK

ONE minute only—and Borden's Malted Milk is perfectly dissolved—ready to drink.

It has the highest solubility possible to obtain without robbing it of its nutritional value. The insoluble part of any malted milk is the nourishing proteins. Increase the solubility and you decrease the food value.

Borden's Malted Milk embodies all the skill and knowledge which sixty years' experience in the handling and manufacture of milk products acquires.

The excessive sweet taste, as well as the peculiar malt "tang", are eliminated, while all the nutritive elements necessary for body building are retained.

For lunch it furnishes you nourishment in concentrated form—between meals it tides you over until meal-time—at night it encourages sleep that builds up vitality.

From childhood to old age—through health and illness—Borden's Malted Milk offers nourishment and palatability at a low cost. Always ready to serve and always the same.

Get Borden's—it's really malted.

FRIENDS SEE CHANGE IN HIM

Oakland Man Says Tanaka Has Restored His Health.

Since Taking It He Gained Thirty-five Pounds.

Spent Hundreds of Dollars in Search for Relief.

Still another well-known California man relates his remarkable experience with Tanaka. A. G. Tuller, of the city of Oakland, an experienced business man, who numbers his friends by the score, declared in a statement the other day that a few lines of the medicine had put him in shape where he has gained thirty-five pounds in weight. But let Mr. Tuller tell his own story. Here is what he says:

"My friends all seem astonished at the wonderful change that has taken place in my condition in such a short time. Following an attack of the flu in October, 1918, I found myself in an awful rundown condition. My stomach, which had been good for three years previous to this attack of influenza, became very much worse, and for six days I suffered frightfully after meals. I rarely ate at all during that time and fell off thirty pounds in period of two weeks. Before coming down with the flu I was also suffering from loss of energy and weakness, and this phase of my condition, as well as the stomach trouble, became much more pronounced. Gas would form on my stomach, causing the worst sort of pain, and a feeling of suffocation that was almost unbearable. I actually had to lie down, and I knew that the torture I would have to go through after taking anything on my stomach. I was badly frightened and in such misery I would often roll and toss all night without getting a wink of sleep. I was very weak and nervous that I could do my work. I was so miserable that I had to leave my home with the Tanaka medicine, and while I admit it seems incredible, my weight was thirty-five pounds above my weight in thirty days' time. I am a sign of indigestion, my life is enjoying life and good health, and have not done in years. I have several hundred dollars for medicines for stomach trouble, but the first bottle of Tanaka medicine brought me back to my health and I am glad of the opportunity to recommend it to everyone in need of something to build me up."

Tanaka is sold in Los Angeles, San Francisco and San Diego by The Drug Store under the personal supervision of a special Tanaka representative. [Advertisement]

For All the Family there's nothing finer for stimulating digestion and elimination than a pleasant and natural laxative.

ENO'S 'Fruit Salt' (Derivative Compound)

A Very Agreeable Appetizer. It works effectively on the digestive organs and bowel, thereby removing headache, biliousness, indigestion, and many other ailments of the digestive system.

As a result of a glass of water with a heaping teaspoonful of ENO'S 'Fruit Salt' dissolved in it, the results are always highly satisfactory. At all Druggists.

BENGALS AGAIN SOUTHWINGED.

Kruse Hangs in on 'Em in Unlucky Style.

Anderson Has Hands Full at First Base.

Long Pinch Hits Him Out of Ball Game.

Mr. Kruse's second embossed letter the second tilt of the season (1 to 2).

His second tilt of the season was a complete rout for the Bengals. The team was routed by the Oakland Athletics, 10 to 1. The game was played at the Oakland Coliseum. The Athletics were led by their star pitcher, Walter Johnson, who pitched a complete game, allowing only one run, one hit, and one error. The Athletics scored all their runs in the first inning. The Bengals were unable to score at all during the game.

FROSH BASKETERS WIN A CLOSE GAME.

A women's athletic carnival was staged at U.S.C. yesterday, with a varied list of events on the program. In the basketball contest the freshmen defeated the upperclassmen by a score of 12 to 8. The hockey contest was won by the 8:55 class from the 8 o'clock, 5 to 6. Misses Huff and Bliss defeated Misses McKim and Goring on the tennis courts in one set, 7-5. The baseball game went to the 8 o'clock, who rapped the 5:15's, 17 to 1. Misses Rogers and Stewart both got home runs. Mount and Cook battered for the winners and Newmeyer and Roberts for the losers. A triple play and a double play enlivened the proceedings.

GEORGE KLAWITER DEFEATS ED CALEY.

Big Ed Caley was defeated, 21-7, 21-17, by George Klawiter in a challenge handball match for the Frank A. Garbutt round robin tourney yesterday. Caley has challenged Clarence Bean, who unexpectedly trounced Dick Retzer by horrible scores on Wednesday, and the pair will play at noon today. Another match set for the same hour is the Laswell-Gold set-to.

RAY BATES HERE AFTER PLAYERS.

Ray Bates, former Tiger and Angel third baseman, who has quit organized baseball to manage the Dinuba club, is here in quest of players.

It is said he may make an offer to Pete Schneider. Bates does not want a pitcher, being here especially for an outfielder. If he figures Schneider can be made into an outfielder, where he would be valuable on account of his hitting, he may make him an offer.

Although he has had trouble with his arm, Schneider, as far as known, is satisfied with his present berth. Bates says the Valley League is a big success. He points out that Hanford has Percy and Baldwin in the top job, while Falkenberg and Land are doing battery work for Lemoore.

OLD SOL HELPS GOLF SCORING.

Better Cards Turned in at Women's Tournament.

Mrs. Kennett and Mrs. Midgeley are Winners.

Today's Play to be Devoted to Semifinal Matches.

Due to splendid weather conditions the women's golf tourney for the championship of Southern California picked up a couple of points at Annandale yesterday. During the first two days of competition the degree of skill exhibited by the ladies was below par because of the low visibility, but with sunshine beaming brightly on the scene everyone shot better scores.

She Swipes 'Em Far and Hard.

Eighteen motor cars will line up tomorrow morning for the start of the fourth annual economy run into the Yosemite Valley. Every one of the machines has been gone over and groomed and primed up into the very pink of condition. Carburetors are hissing with lots of air and not much gas, water leaks have all been plugged and oil is being dished out as though it were liquid gold.

ALL ECONOMIC. For the car using the smallest quantity of gasoline, oil and water and averaging the slowest running distance per ton will be the winner and exactly eighteen of the entries are figuring on being that particular one. Of course, the amount of gasoline consumed depends largely upon the car, but the man at the wheel is also a mighty important factor. And the eighteen drivers at the helms of these machines are a most economical bunch of birds ever collected. The sound of gasoline buzzing into a manifold makes these demons positively ill and if they can coast thirty feet they shut off their engines and do so. The present supply of gas will last forever this time, were the only ones using it.

The following cars will tackle the road to Yosemite tomorrow morning for the Camp Curry and Fred L. Baker trophies: Briscoe, Premier, King, Dorris, Tempair, Dorris, Commonwealth, Metz, Crow, Elkhart, Holmes air-cooled, Comet, National, Skoller, Overland touring, Overland (sedan), Willys-Knight and Stephens.

FINAL CHECK.

At 3 o'clock this afternoon cars and drivers are to report on Alameda street, near the Los Angeles Ice and Cold Storage plant, where they will be given a final check-up. The cars will be filled with gas, oil and water and placed under guard for the night. Observers for each machine will be assigned, who will ride with the car to the first night control at Fresno. Chief Observer Roy E. Meads will have charge of the observation crew and will assign his assistants to the various entries.

Tomorrow morning the cars will be weighed and checked out from the Auto Club by 7:30 a.m., and the race will be on. Speedometer count on this trip, although all of the entries will be required to report to the noon and at night control, and the various cars show the best gasoline mileage will be the one to win. The speed at which the various cars show the best gasoline mileage will be the one to win. The speed at which the various cars show the best gasoline mileage will be the one to win.

WILD EXCITEMENT. Wild excitement prevailed at the Overland headquarters yesterday. Mr. Wilson was on hand with slide rules and trigonometry books enough to stock a schoolroom, trying to figure what the miles meant. A staff of high-powered stenographers and office assistants was clustered around, jotting down and after much adding and subtracting, Mr. Wilson announced that the Overland would win by a substantial majority.

Manager Young of the King outfit spent the whole day polishing up his entry and issuing orders on when to coast and when to give her the gun.

Frank Rea was noticed galloping along Broadway with a satisfied grin on his face, for a Holmes air-cooled car had just returned from the Valley on a test run and the gasoline bill was apparently not excessive. With his first night control check the Dert was going to be the surprise package of the whole show, and he was whistling and singing and eight miles to the gallon of gas, etc., etc.

LOTS OF PEP. In all other camps there were large quantities of energy displayed in preparation for the jaunt and the galloping dominoes were being polished up as well as the machines. Harry Bruce, director-general of the run, was bustling around with a hatted look on his face, wondering if he had arranged for enough grub and bunking facilities for the whole crew.

Tackled on this important point Director-General Bunce gave out the following facts: The Hotel Tegeler at Bakersfield will be the official feed bag joint and the whole day will be made in advance to serve lunch as fast as the cars roll into that noon control, so they may be upon their way again. Every car must check in at the Bakersfield Garage, the official checking station.

AUTO THIEVES GET ONLY TWO.

Only two autos were stolen from the streets of Los Angeles yesterday, viz: Buick 1917 touring, black-blue, engine number 308-927; Buick 1920 touring, blue-black, Colorado 55781. Anyone seeing either of these cars will please notify Erven, Hickok or Rose of the Auto Club theft bureau or police headquarters.

WALTER D. POWELL CHOSEN AS COACH. STANFORD UNIVERSITY, May 5.—Walter D. Powell, director of the department of physical education at Montana State College, has been selected as athletic coach at Stanford University, it was announced here today.

During the war Powell was athletic director at Camp Sherman, O., and served also in the navy. He is a graduate of the University of Wisconsin. Powell will coach the football and basketball, and possibly the baseball teams at Stanford.

AUSTRALIA FIGURES ON OLYMPIC SQUAD. (BY CABLE AND ASSOCIATED PRESS.) SYDNEY (Australia) May 5.—The responsible organizations in the various States of the Commonwealth are engaged on the question of Australian representation at the Olympic Games at Antwerp in August and September of this year. The proposal is that Australia should send a team of twenty-three, made up as follows: Track and field games, three; swimmers, six; cyclist, one; tennis, two; rowing, eleven, and a manager. These numbers will be entirely dependent upon the amount of money subscribed.

BEAR BALL TEAM IS TO TOUR EAST SOON. (BY A. P. NIGHT WIRE.) BERKELEY, May 5.—The University of California baseball team that beat the University of California here 6 to 2 recently, will leave for a tour of the eastern part of the country on May 15.

The State university's tennis team is planning a similar trip and the track and field team will go East for the western conference and American intercollegiate meets.

HANNER HURLS THE SPEAR FOR RECORD. (BY A. P. NIGHT WIRE.) STANFORD UNIVERSITY, May 5.—Flint Hanner of San Jose, Cal., winner of the javelin throw in the recent Stanford intercollegiate meet, surpassed the national A.A.U. record by two feet recently when he hurled the javelin 187 feet in practice. Hanner will probably be entered by Stanford in the I.C. A.A. meet at Princeton this year.

SWIMMING CRACKS CALL OFF MEETING. The swimming meet, with Norman Ross, Harry Heber and other of the Illinois aquatic stars as the headliners, scheduled for the L.A.C. pool tonight, has been called off. The easterners decided they had enough of the water stuff for while, having just finished a strenuous polo campaign in San Francisco, and most of the party of party of eleven leave tomorrow night for San Francisco, where they take a special car for Chicago.

STANDING OF CLUBS. PACIFIC COAST LEAGUE. W. L. P. S. Francisco 17 9 504 Salt Lake 15 14 461 Portland 12 11 500 Los Angeles 11 14 461 Vernon 12 11 500 Sacramento 11 14 461 Yesterday's Results. Oakland 6; Vernon 3. Portland 2; Los Angeles 4. Los Angeles 7; San Francisco 1. Portland 5; Salt Lake 4.

NATIONAL LEAGUE. W. L. P. Cincinnati 11 6 500 Boston 10 14 461 Brooklyn 11 6 500 St. Louis 10 14 461 Pittsburgh 11 6 500 Chicago 10 14 461 Philadelphia 11 6 500 Yesterday's Results. Cincinnati 2; St. Louis 1. Pittsburgh 4; New York 3. Philadelphia 2; Boston 1.

COLLEGE BASEBALL. At West Point: Papa State 5; Army 1. At New Haven: Yale 2; Yale 1. At Annapolis: Washington 2; Lee 5; Naval Academy 8.

TIA JUANA MEETING EXTENDED TO JUNE 1. (EXCLUSIVE DISPATCH.) SAN DIEGO, May 5.—The present Tia Juana race meeting will be extended a week, the close coming June 1, according to unofficial announcement made yesterday afternoon.

President James W. Coffroth is in San Francisco. He is expected to make public the meet's extension on his return to San Diego the latter part of the week. The new plan will bring the finale on Decoration Day and will add seven racing days to the schedule. The end was set to come on Saturday, May 22.

It is proposed to offer several additional handicaps of large value, according to officials of the jockey club.

RAY BATES HERE AFTER PLAYERS.

Ray Bates, former Tiger and Angel third baseman, who has quit organized baseball to manage the Dinuba club, is here in quest of players.

It is said he may make an offer to Pete Schneider. Bates does not want a pitcher, being here especially for an outfielder. If he figures Schneider can be made into an outfielder, where he would be valuable on account of his hitting, he may make him an offer.

Although he has had trouble with his arm, Schneider, as far as known, is satisfied with his present berth. Bates says the Valley League is a big success. He points out that Hanford has Percy and Baldwin in the top job, while Falkenberg and Land are doing battery work for Lemoore.

Only two autos were stolen from the streets of Los Angeles yesterday, viz: Buick 1917 touring, black-blue, engine number 308-927; Buick 1920 touring, blue-black, Colorado 55781. Anyone seeing either of these cars will please notify Erven, Hickok or Rose of the Auto Club theft bureau or police headquarters.

WALTER D. POWELL CHOSEN AS COACH. STANFORD UNIVERSITY, May 5.—Walter D. Powell, director of the department of physical education at Montana State College, has been selected as athletic coach at Stanford University, it was announced here today.

During the war Powell was athletic director at Camp Sherman, O., and served also in the navy. He is a graduate of the University of Wisconsin. Powell will coach the football and basketball, and possibly the baseball teams at Stanford.

AUSTRALIA FIGURES ON OLYMPIC SQUAD. (BY CABLE AND ASSOCIATED PRESS.) SYDNEY (Australia) May 5.—The responsible organizations in the various States of the Commonwealth are engaged on the question of Australian representation at the Olympic Games at Antwerp in August and September of this year. The proposal is that Australia should send a team of twenty-three, made up as follows: Track and field games, three; swimmers, six; cyclist, one; tennis, two; rowing, eleven, and a manager. These numbers will be entirely dependent upon the amount of money subscribed.

BEAR BALL TEAM IS TO TOUR EAST SOON. (BY A. P. NIGHT WIRE.) BERKELEY, May 5.—The University of California baseball team that beat the University of California here 6 to 2 recently, will leave for a tour of the eastern part of the country on May 15.

The State university's tennis team is planning a similar trip and the track and field team will go East for the western conference and American intercollegiate meets.

HANNER HURLS THE SPEAR FOR RECORD. (BY A. P. NIGHT WIRE.) STANFORD UNIVERSITY, May 5.—Flint Hanner of San Jose, Cal., winner of the javelin throw in the recent Stanford intercollegiate meet, surpassed the national A.A.U. record by two feet recently when he hurled the javelin 187 feet in practice. Hanner will probably be entered by Stanford in the I.C. A.A. meet at Princeton this year.

SWIMMING CRACKS CALL OFF MEETING. The swimming meet, with Norman Ross, Harry Heber and other of the Illinois aquatic stars as the headliners, scheduled for the L.A.C. pool tonight, has been called off. The easterners decided they had enough of the water stuff for while, having just finished a strenuous polo campaign in San Francisco, and most of the party of party of eleven leave tomorrow night for San Francisco, where they take a special car for Chicago.

TIA JUANA MEETING EXTENDED TO JUNE 1. (EXCLUSIVE DISPATCH.) SAN DIEGO, May 5.—The present Tia Juana race meeting will be extended a week, the close coming June 1, according to unofficial announcement made yesterday afternoon.

President James W. Coffroth is in San Francisco. He is expected to make public the meet's extension on his return to San Diego the latter part of the week. The new plan will bring the finale on Decoration Day and will add seven racing days to the schedule. The end was set to come on Saturday, May 22.

It is proposed to offer several additional handicaps of large value, according to officials of the jockey club.

RAY BATES HERE AFTER PLAYERS.

Ray Bates, former Tiger and Angel third baseman, who has quit organized baseball to manage the Dinuba club, is here in quest of players.

It is said he may make an offer to Pete Schneider. Bates does not want a pitcher, being here especially for an outfielder. If he figures Schneider can be made into an outfielder, where he would be valuable on account of his hitting, he may make him an offer.

Although he has had trouble with his arm, Schneider, as far as known, is satisfied with his present berth. Bates says the Valley League is a big success. He points out that Hanford has Percy and Baldwin in the top job, while Falkenberg and Land are doing battery work for Lemoore.

OLD SOL HELPS GOLF SCORING.

Better Cards Turned in at Women's Tournament.

Mrs. Kennett and Mrs. Midgeley are Winners.

Today's Play to be Devoted to Semifinal Matches.

Due to splendid weather conditions the women's golf tourney for the championship of Southern California picked up a couple of points at Annandale yesterday. During the first two days of competition the degree of skill exhibited by the ladies was below par because of the low visibility, but with sunshine beaming brightly on the scene everyone shot better scores.

She Swipes 'Em Far and Hard.

Eighteen motor cars will line up tomorrow morning for the start of the fourth annual economy run into the Yosemite Valley. Every one of the machines has been gone over and groomed and primed up into the very pink of condition. Carburetors are hissing with lots of air and not much gas, water leaks have all been plugged and oil is being dished out as though it were liquid gold.

ALL ECONOMIC. For the car using the smallest quantity of gasoline, oil and water and averaging the slowest running distance per ton will be the winner and exactly eighteen of the entries are figuring on being that particular one. Of course, the amount of gasoline consumed depends largely upon the car, but the man at the wheel is also a mighty important factor. And the eighteen drivers at the helms of these machines are a most economical bunch of birds ever collected. The sound of gasoline buzzing into a manifold makes these demons positively ill and if they can coast thirty feet they shut off their engines and do so. The present supply of gas will last forever this time, were the only ones using it.

The following cars will tackle the road to Yosemite tomorrow morning for the Camp Curry and Fred L. Baker trophies: Briscoe, Premier, King, Dorris, Tempair, Dorris, Commonwealth, Metz, Crow, Elkhart, Holmes air-cooled, Comet, National, Skoller, Overland touring, Overland (sedan), Willys-Knight and Stephens.

FINAL CHECK.

At 3 o'clock this afternoon cars and drivers are to report on Alameda street, near the Los Angeles Ice and Cold Storage plant, where they will be given a final check-up. The cars will be filled with gas, oil and water and placed under guard for the night. Observers for each machine will be assigned, who will ride with the car to the first night control at Fresno. Chief Observer Roy E. Meads will have charge of the observation crew and will assign his assistants to the various entries.

Tomorrow morning the cars will be weighed and checked out from the Auto Club by 7:30 a.m., and the race will be on. Speedometer count on this trip, although all of the entries will be required to report to the noon and at night control, and the various cars show the best gasoline mileage will be the one to win. The speed at which the various cars show the best gasoline mileage will be the one to win.

WILD EXCITEMENT. Wild excitement prevailed at the Overland headquarters yesterday. Mr. Wilson was on hand with slide rules and trigonometry books enough to stock a schoolroom, trying to figure what the miles meant. A staff of high-powered stenographers and office assistants was clustered around, jotting down and after much adding and subtracting, Mr. Wilson announced that the Overland would win by a substantial majority.

Manager Young of the King outfit spent the whole day polishing up his entry and issuing orders on when to coast and when to give her the gun.

Frank Rea was noticed galloping along Broadway with a satisfied grin on his face, for a Holmes air-cooled car had just returned from the Valley on a test run and the gasoline bill was apparently not excessive. With his first night control check the Dert was going to be the surprise package of the whole show, and he was whistling and singing and eight miles to the gallon of gas, etc., etc.

LOTS OF PEP. In all other camps there were large quantities of energy displayed in preparation for the jaunt and the galloping dominoes were being polished up as well as the machines. Harry Bruce, director-general of the run, was bustling around with a hatted look on his face, wondering if he had arranged for enough grub and bunking facilities for the whole crew.

Tackled on this important point

OXY TEAM IS SLAUGHTERED.

U.S.C. Ball Nine Fairly Smooth Opponents.

Orange and Black Score Only in Eighth Inning.

Seven of Hits Were Poled Over Right Field Fence.

BY PAUL LOWRY.

Scoring in every inning but three, the U.S.C. baseball team stung Occidental for a 16-2 victory in a game played at the Downey-street playgrounds yesterday afternoon. The disciples of Coach "Gloomy Gus" Henderson found the Tiger pitcher's spit ball much to their liking and bagged a total of seventeen safe blows. Seven of these were doubles which sailed over the short right-field fence.

Thornton pitched consistent ball for the Trojans and was never in danger. The Orange and Black, however, cannot be laid wholly at Henderson's door. His support wobbled and wavered terribly, making no less than nine errors during the course of the clash.

The Occidental fielders started out as early as the first inning to play hard tricks with the ball. After two were down, Mayhew allowed a grounder from Thornton's bat to slip between his legs, and Norton followed this up by dropping a fly. Hinch doubled, Isenhouer singled and three runs came across.

Occidental erased the zero from her half of the scoreboard in the eighth, when the Trojans donated a pair of runs for the cause. Immediately thereafter they burned up a bit of their excess energy by spiking the pan for the final count of four.

The score:

U.S.C.	AB	R	H	O	A	Occidental	AB	R	H	O	A

YIPPER RALLY IN NINTH AND WIN OUT.

SALT LAKE CITY, May 5.—

Salt Lake scored five runs in the ninth inning, beat Salt Lake today, 9 to 6. In the first two innings, Salt Lake scored five runs and it was after this frame Frough was taken out and De Vitales substituted. He had the bees tamed and allowed them but one run during the remaining seven innings. Compton, Sacramento right fielder, got a homer in the seventh off Mattson. The score:

SACRAMENTO	AB	R	H	O	A	SALT LAKE	AB	R	H	O	A

OWENSMOUTH NINE IS FAIRLY SWAMPED

Breaking its long streak of losses, the Hollywood High School baseball team defeated the Owensmouth team by a score of 17 to 1 at Hollywood yesterday afternoon. The Hollywood team scored 5 runs in the first inning, 2 in the second, 4 in the third, 1 in the sixth, 2 in the seventh and 3 in the eighth. The Owensmouth team scored 1 run in the first inning and 1 in the eighth.

Meantime, Housh, is running around into shape, while another heaver, Walter, also is expected shortly.

Theatres find this Bank's Night Service a great convenience

FREQUENTLY change is needed to meet an unexpected rush at the box office.

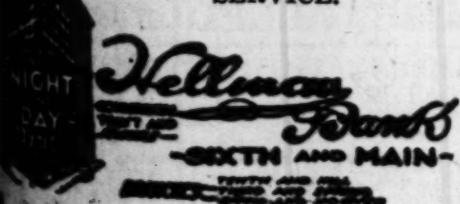

Often there are circumstances that require the use of a bank after regular banking hours.

And receipts are more conveniently deposited after the day's business.

Are a few of the advantageous reasons a score or more theater owners have for depositing in the Bellman Bank.

If you are not one of this bank's eighty thousand depositors you will find it to your interest to investigate this convenient and dependable

ALL NIGHT AND DAY SERVICE.

ALL America

Most of the newspapers give their subscribers a copy of the SUNDAY TIMES.

BENGALS AGAIN SOUTHWINGED.

(Continued from First Page.)

Capt. Zeider has one of the most commanding noses in the business. When the Oaks board the street car for the park every afternoon, Capt. Zeider leans his bugle out of the window, the citizens take it for granted that the team is carrying its own orchestra, showing a lot of class.

Third Baseman Jack Knight tried to include the shortstop's position in addition to his own in the fifth, and added a grounder by Fisher. Bob was forced by Edington, who went to second on Barton's single. Krause passed Smith in true southpaw fashion, leading the corner. Alecock popped a tall fly into the middle of the diamond, which nobody caught, but Krause, who had the fallen pill in time to retire Scotty at first, although Edington counted. Al DeVormer sat down to avoid southpaw slants which threatened him, but took the next one standing up. It made only a slight dent in his armor, and he took first. W. Mitchell then emptied the bases with a fly to Miller.

GET TROUBLESOME. Oakland became a troublesome with the bat for the first time in the fifth, when Lane let loose a triple behind Zeider's single and a pass held by Krause. There was some doubt about Krause scoring. He seemed surprised that there should be a triple somewhere in his rear that he stopped at every base to look back.

Oakland had enough on in the sixth to win a couple of games, but dragged only one run out of the mess. Mitchell started by loosening up with four wide ones to Willie. A single by Hack Miller put the passer on third, and Willie chased himself home on Knight's fly to Chadbourne.

Zeider, who was hitting everything that looked like a baseball, chased Miller to third with a short single to center, and Rolie took second on the three-quarter. Pop Arlett drove to Fisher, who hustled the ball to DeVormer. Miller surrendered near the plate with hardly a struggle.

Zeider moved to third, and remained fixed and immovable while Arlett Pat Crowed second. Mitchell soaked Mize in a workmanlike manner, and the bases were again loaded up like a machine gun. With things in this critical condition, Krause knocked a grounder to Smith, who stuck his cleats into third base for a forcible out on Arlett.

When the Oaks took the field in the sixth, Hack Miller proved himself an athlete by spearing a low-flying blackbird with his left hand. Hack, after sneezing the bird gently found that it would ooze no music, and then liberated it. Miller denies that he had any salt in his glove when he speared the bird. He says these things come easy to him. During the duck season he doesn't use a gun. Hack simply hides in the tulles and spears the choice fat ones with his bare mitts as they fly past. Small ones, like teal, he simply grabs between his thumb and forefinger.

ONE IN SIXTH. Vernon added the general interest with a run in the sixth, the same being the product of Smith's two-bagger and a safety by DeVormer. The Oaks considered their lead too lean for comfort, and upholstered it with a brace in the eighth. Miller's walk and a single by Zeider left the visitors roosting on second and first with two out. Mize rifed a hot one to left.

Scotty Alecock made a brave try. He did an Annette Kellermann for the globe, clutching it with both hands as he slid along the ground. But his clutch slipped and the ball rolled far away. Before it could be picked up, Miller and Zeider had spiked the pan, and Mize was at second. Krause grounded to J. Mitchell. Hamilton and Willie manufactured doubles off Fromme for a run in the ninth.

Vernon made its last real bid in the eighth. Barton's single, Smith's walk, a forcible out of the latter by Alecock, and a double steal netted a run with one gone. DeVormer ballooned to Willie with Alecock on second. It was in this crisis that Tommy Long entered to bat for W. Mitchell. Tommy poked a grounder to Hamilton, who juggled it and then heaved to first. It was close, so much so in fact that Long appeared to have the base tied. Anderson ruled the runner out at first, and then out of the game when he talked back. Everybody, except Billy Phyle, who was professionally neutral, appeared to disagree with Anderson.

Earl Houk, the blind Elk, who umpires by ear says the base was tied. Houk judges the play by the sound of the runner's foot touching the base, and of the ball landing in the first baseman's mitt. Only once has he ever been fooled. That was when the shortstop made a low throw. The ball hit the base while the runner stepped in the first baseman's mitt. On that occasion he called the runner out, and his reputation has never been quite the same since. The score:

HER PICTURE PLANS.

FLORENCE STONE TO PLAY IN

SARDOU DRAMAS.

By Grace Kingsley.

Alexander Pantages, vaudeville

magnate, is going into the motion

picture producing business, and his

star is to be Florence Stone, well

known player of emotional roles.

This announcement was made yester-

day, when it also became known

that as soon as Miss Stone finishes

her contract to play her present act

from "Tosca," on the Pantages cir-

cuit, which will be in the course of

ten weeks, she will return to Los

Angeles to begin her film activities.

Miss Stone's present return to the

stage marks her first appearance be-

fore the public in two years. As Mr.

Pantages owns some forty-five or

forty-six theaters, throughout the

country, the picture may be said to

be sold before they are made.

The plays which Miss Stone will

put into celluloid immortality in-

clude the famous Sardou dramas, to

which she has the sole film rights.

These are the plays in which Fan-

nie Davenport appeared. Miss Stone

also has the Davenport costumes, which

she will wear in the pictures. Among

these are "Cleopatra," "Fedora,"

"Samson and Delilah," "La Tosca,"

and others. "The Holy City," in which Miss Stone made

perhaps the greatest hit of her stage

career, will also be filmed.

William J. Bowman has been

engaged as Miss Stone's director. He

is responsible for a number of suc-

cessful film plays, and at present is

appearing with Miss Stone on her

vaudeville tour. A number of his

own plays and stories, including "The

Chasm" and others, will serve as

vehicles for Miss Stone. "The Chasm"

will probably be the first picture made,

the company traveling to Alaska.

An interesting feature concern-

ing the Sardou productions is the fact

that Mrs. Melbourne MacDowell, who

was Fannie Davenport's husband, and

played opposite her, will probably play

important roles in the pictures.

Miss Stone is stopping with friends

during her stay in the city. Seen

yesterday at the Pantages, she was

radiant over the prospect of her

coming picture work, and she was

laughing over the idea of becoming a

film tragedy queen.

"Why, I thought you were dead-

ly serious," I remarked.

"Once a tragedienne, always a

comedian, you know," she retorted.

Asked concerning the recent re-

port that she was reconciled to Dick

Ferrie, her former husband, and

was about to marry him over again,

she said:

"No, not exactly that. But we're

good pals. Always awfully good

friends. Why, I'm going to dine

with him tomorrow night. I don't

think that careless of me. It's liable to

make talk, you know."

Mary's Trip Off.

Mary Pickford, now Mrs. Douglas

Fairbanks, has definitely can-

celed all her bookings formerly

WEAVES :: SEDUCTIVE :: SPELL.

Accompanying Barrymore Feature Play.

By Edwin Schallert.

The invasion of foreign countries

by the Famous Players-Lasky Cor-

poration is apparently not to be sus-

pended with the acquisition of a

studio in the British Isles. It is to

be carried on in other sections of the

English Empire. This is definitely

indicated in the announcement that

the company has set aside \$3,000,000

for the institution of a studio in In-

dia. A concern has been formed with

the capitalization stated, known as

the Indian Empire-Famous Play-

ers-Lasky Film Company, Ltd., for

the express purpose of developing the

plan.

Announcement of this was made

by Alfred Zukor, president of the Fa-

mous Players-Lasky Corporation, up-

on his return from Europe a few

days ago. He also states that the

new company will have a distributing

organization patterned after the

American exchange system, and that

the pictures produced in India will

be available for exhibition in other

countries. Mr. Zukor has just re-

turned from England.

The reasons assigned for the or-

ganization of this \$3,000,000 com-

pany for the exploitation of Indian

pictures are set forth as follows by

Mr. Zukor:

"When one realizes that in the In-

dian Empire alone there are 400,000-

000 persons, one can get an idea of

the vast possibilities in production.

Of course, our films are already be-

ing distributed in that country, but

we wish to make pictures that will

be closer to the thought and lives of

the Indian people. It is practically

impossible to involve such productions

in this country.

It is our policy to make photo-

plays that will fit into the lives of

the people of all countries. This is

the reason for the establishment of a

company in England and the erec-

tion of a studio in London, which,

when I left two weeks ago, was

ready for operation."

Rio Grande to Stay.

The popularity of "Rio Grande"

as a photoplay would indicate a

second week for this picture at Tal-

ley's Broadway. The principal roles

are played by Rosemary Theby,

Allan Sears, Arthur Edmund Car-

rewe, Hector Sarno, Adele Farrin-

gton and Harry Duffield. The scenar-

io of the picture was derived from

the stage play by Augustus Thomas.

Lubin Coming Back.

Indications are that the Lubin

interests are to take advantage of

present conditions to stage a re-

vival of his activities. Wire advices

from the East state that Signor

Lubin, of Atlantic City and Phila-

delphia, who has emerged from re-

tirement, and Kenneth M. Peacock,

of Wilmington, Del., have formed

the Lubin-Peacock Film Corpora-

tion with a capital of \$1,000,000.

The papers were being prepared

yesterday with a view to incorpo-

ration under the laws of Delaware.

This is the result of a conference

held in Atlantic City.

On account of poor health, Lubin

retired from the film business dur-

ing the war, but it is said that he

will now endeavor to re-establish

his high place as a producer, us-

ing his own photographic devices.

The pictures of his concern will be

made in California. It is stated, al-

though the company will also main-

tain an eastern plant, probably in

Atlantic City.

Tokens for Rothwell.

A jeweled baton was presented to

Walter Henry Rothwell, conductor

of the Philharmonic Orchestra, at

the final concert presented by the

musical body this season. It was

the gift of W. A. Clark, Jr., found-

er of the orchestra, and it is an

exact duplicate in size and weight

of the baton, Mr. Rothwell has

well customarily used. Sylvain

Noack, concertmaster, acted as

speechmaker at the presentation.

Howard on Contract.

Willie and Eugene Howard, who

are soon to appear in this city in

"The Passing Show," have been en-

gaged on a long-term contract with

the Schubert, it is understood. In

fact, it has been definitely an-

nounced that they have signed up

for five years, and that in addition

to their salaries they are to receive

25 per cent of the profits.

The Howard Brothers have al-

ways been favorites with audiences

in this city.

Their first appearance in the Win-

ter Garden productions was in "The

Whirl of Society" in 1911. They

played in "The Passing Show of

1912," the "Show of Wonders," and

now, in the "Passing Show of 1913."

Uses Own Makeup.

Louise Lovely, who plays the lead-

ing feminine role opposite Lew Cody

in "The Butterfly Man" at the Sym-

phony, has been so successful in the

preparation of her own grease-paint

that Lew Cody insisted that he be

allowed to use the same prepara-

tion.

Police Officer Lind won a bet of

\$2 at two to one on "Shortstop" to

win, but never got his \$6 from

John Swigert, who he says took the

bet according to the agreement yester-

day in Justice Palmer's court. He

said he never saw Swigert again un-

til he reported on all listed bet-

ters and could not collect. Swigert was

held to answer on three counts of

the same part on the stage in the

Tia Juana on February 23 and March

4. The bet, it was said, were re-

ceived at 256 1/2 South Spring street.

DEAD UNKNOWN MURDER CLEW.
Through Corpses Would Trace Slaying of Banker.
Officers Eager to Identify Burglar Shot to Death.
Unable to Find Motive for Killing of Robbins.
All their efforts failing to establish a motive for the mysterious slaying Monday evening of H. J. Robbins, 48 years of age, retired banker of 320 South Hobart boulevard, at Sixth and Oxford streets, Police Detectives O'Brien, Cline, Gamaah, Williams and Zellerbach yesterday started a determined effort to identify the burglar slain last night by Special Officer J. Stuchbury, on the theory that Robbins was murdered by a friend of the burglar as the result of mistaken identity.
The police believe if they are able to identify the burglar who was shot to death while looting a residence near where Robbins was slain, they will be able to locate some of his friends, and these may obtain a clew to the mysterious slaying of the aged banker. The dead burglar's picture was yesterday printed in the police bulletin, and instructions issued to all officers to attempt to discover his identity.
NO CLEW IN ROPE.
Officers yesterday combed the neighborhood where Robbins' body was found and questioned many persons for possible information as to the murderer's description. They also interviewed conductors on street cars operating in the vicinity. No useful information was secured.
All hardware stores where rope is sold were also visited in an effort to locate the place from which the rope found wound about the dead man's throat was purchased. The officers also visited large business houses and examined the type of ropes received about the city.
They discovered that the six-thread left-wound rope found on the body cannot be purchased in this city, but does come into Los Angeles on bales and boxes of goods. They, however, were unable to find any clew by which to trace the rope.
MAY OFFER REWARD.
Although Harold and Howard Robbins, the two sons of the slain banker, yesterday advised the police in every possible way in the investigation, they were unable to give any definite information to hurry the search for their father's murderer. They stated late yesterday that so far they have offered no reward for his capture, and will not do so at present. Later, however, if the fugitive is caught, a large reward may be offered.
Today the police will make a careful investigation into the dead man's business transactions during the past few months and will interview officers of banks with whom he did business. By looking through his papers, the police say, they may be able to unearth some unknown enemy.
Coroner Hartwell announced that an inquest will be held at 10 a.m. tomorrow at the undertaking rooms of Booth & Boylan.
RE-ELECT OFFICERS
Local Branch of British Overseas Club Shows Rapid Growth.
The Los Angeles branch of the British Overseas Club, an international organization with headquarters in London, Tuesday night unanimously re-elected its officers and selected an executive committee of seven. The officers elected are: Brook Hawkins, president; A. B. Downe, vice-president; R. A. Millburn, treasurer; E. J. Gibson, secretary. The executive committee members are: William Dibble, Thomas Richards, W. C. Arthur, Brain, Walter Cripps, Douglas Tuck and John Bain.
This club, which had only forty-nine members last year, now has a membership of 657. It sent a guard of honor composed of fourteen ex-servicemen in the recent war, now members of the club, under command of Lieut.-Col. C. D. Wornop, to San Diego to meet the Prince of Wales. The Prince personally received each of the men and Mr. Millburn, who accompanied them.

ATTEMPTED ROBBERY COSTS TIP OF NOSE.
WOULD-BE BAD MAN CAPTURED BY VICTIM HE SHOT; WAS FACE HIT OR HIT?
Kostas Dexonethis, 25 years of age, a would-be highwayman, who early yesterday morning shot William Davis after attempting to hold him up in a restaurant at Fourth and Hill streets, and was then soundly beaten and turned over to the police by his victim, spent the day yesterday in the City Jail trying to figure out what had happened to his nose.
The story of Dexonethis, according to Police Detective Hawtry who arrested him, is a sad tale. The bold, bad bandit walked into the restaurant and at the point of a revolver demanded all Mr. Davis's money. Mr. Davis failed to respond so Dexonethis shot him in the left thigh. Then things began to happen to the "bad man."
Dexonethis, after feeling himself safe in the hands of the police, loudly declared that Mr. Davis had bit off the end of his nose. Mr. Davis, on the other hand, stated he had hit the bandit on the nose with a club. At all events, surgeons at the Receiving Hospital who examined the bandit found the tip of his nose missing.
COMPTON POST ACTIVE.
Compton Post, No. 152, American Legion, at a business meeting Monday evening adopted resolutions indorsing higher pay for teachers. A special meeting has been called for Tuesday to start a membership drive. The Pomona College men's glee club will give an entertainment in the Compton High School tomorrow evening for the benefit of the post.
WINS ON APPEAL.
The State Supreme Court yesterday affirmed the judgment of \$4391 found in favor of Frank Whitaker in his action against the Title Insurance and Trust Company for damages by reason of certain representations made in a certificate of guarantee of title issued by the defendant on lands in Los Angeles county.

HANISH SLATE WIPED.
Last Charge Against So-called Sun Prophet Dismissed.
The last of the charges against Otis A. Hanch, so-called "prince and little master" of the Masdanan sun cult, was dismissed yesterday by Justice Summerfield on motion of Dep. Dist. Atty. Hill. Hanch, in a restaurant at Fourth and Hill streets, was charged with offenses against five minor children, this case covering the same charges as those recently thrown out of the Superior Court.
MOTHER OF COUNCIL MEMBER DIES HERE.
Mrs. Elizabeth Wheeler, mother of Councilman Wheeler, died here yesterday afternoon after four months of illness. Born in Pennsylvania in 1846, Mrs. Wheeler went to Minnesota in 1866 and thirty-five years ago removed to California. Besides the son in this city she leaves another son, E. P. Wheeler of Minneapolis, and two grandchildren. The funeral arrangements are in charge of Pierce Bros.
TWO POLICEMEN ARE OUSTED FROM FORCE.
Dismissal from the police department was ordered yesterday by the Police Commission in the cases of Patrolman Charles J. Ernst, charged with sleeping while on duty, and Patrolman Earby G. Barnes, charged with conduct unbecoming an officer.
STRICKEN ON STREET, RIVERSIDE MAN DIES.
Clarence W. Fahr, 42 years of age, a hotel man of Riverside, died here yesterday afternoon in the Receiving Hospital from hemorrhage of the brain. The body was removed to the undertaking establishment of Booth & Fitch, Mr. Fahr collapsed at First street and Broadway early yesterday afternoon.

Hamburger's
ESTABLISHED 1881
Home 10063 —Phones— Bdw. 1168
Today Those Who Are Planning Summer Comfort for the Home Will Find
Decided Savings on Summer Furniture
From great reserve stocks Hamburger's has taken a number of comfy, summer chairs and made them at old-time prices. 'Twill make for the happiness and economy of all who shop for these tables.
Maple Rocker, 9.95
Maple Chair, 6.95
So sturdy that they may be used on lawn or porch regardless of the weather. And as pictured, comfortable beyond description. Both underprice, too.
Roomy Reed Rocker, 12.95
Its comfort is unbounded. Its price an unusual one! We were especially particular about the make of this rocker. We know it will stand long and continuous use.
This Twisted Fiber Rocker, 16.95
Very strong, and very attractive! It makes a wonderful addition to the living-room or porch. Arm chairs to match at the same price.
Rockers, 16.95
Arm Chair, 18.95
There is something about Chinese furniture that is in its hold upon our imaginations. It is an art, and so strongly broad!
Rustic Hickory Rocker 5.95
And hickory, you know, is the favorite as well as the most serviceable of out-door furniture. The illustration suggests its sturdiness.
Folding Settees of Hard Wood, 2.25
Fold them up and carry them from porch to lawn or tennis court and so make one piece of outdoors furniture do the work of several.
Strongly made of hardwood slats finished in the natural color, red or green, 5 1/2 ft., 2.25. Also 4 1/2 ft. size at 1.25, and child's size at 59c. (Hamburger's—Fourth Floor)
Reed Steamer Chair at 19.50
Strongly constructed of round reed in natural color. Deep seat with cushion foot rest and adjustable back. A comfortable chair for the porch or sunning—19.50.
The Summer Furniture Section offers many other inducements nowadays. There are Steamer Chairs, Chain Lamps, Tables and novelty pieces that are very attractive. All are most conservatively priced—at Hamburger's. (Hamburger's—Third Floor)

THE QUICKEST WAY TO GET SOMETHING GOOD THAT YOU POSSESS INTO THE HANDS OF ANOTHER WHO WANTS IT IS NOT TO SCARE HIM WITH THE PRICE OF IT.

WET HOPES DASHER
Dominant Political Parties are Dry
Democratic Committee Resolutions in Against Wine-Beer Plank.
Sentiment Against Liquor Even Stronger in Republican Circles.
WASHINGTON, May 6.—"Wet" hopes to obtain a plank in the Democratic and Republican national platforms favoring light wines and beer have given up, according to information circulating from headquarters of both parties.
There has been a checking-up on the "wet" strength in the convention by the Republican and Democratic leaders within a week. It transpires, with the result that the force of prohibition is being advised of the hopelessness of their cause, so far as a presidential contest is concerned. The Democratic national committee made an unusual canvass of the situation, for the reason that both Gov. Edward G. Bremer of Illinois, Gov. Charles D. Wideman of New Jersey and Gov. Cox of Ohio have been urging as Free trade possibilities favorable to the prohibition convention which will meet in July at the "wet" headquarters in New York City.
WET MINORITY.
The Democratic check showed that only sixteen of the fifty-one members of the resolutions committee at San Francisco would favor a "wet" plank; if the prohibitionists prevail, the delegates to the States selecting the delegates will name the members of the committee.
It is understood that as a result of this canvass, Chairman Cummings of the Democratic national committee, who will be the temporary chairman of the Democratic convention, will refrain from striking any keynote favorable to the "wet" cause.
Democratic leaders have also been advised of the anti-prohibitionist sentiment of the "wet" plank, and they are now trying to force through a strong plank.
Democratic chieftains here (Continued on second page.)
WOOD PLURAL
on Thousand Ahead
diana; Convent
INDIANAPOLIS, May 6.—Majority of a plurality of 84-7 over Senator Johnson's Presidential preference plank returned from the state precincts Johnson, 79,839; Lowden, 51,000. Wood's returns indicate a plurality in the State.
Indiana's plurality in the State is a plurality in fifty-three counties. Senator Johnson won in four counties and Senator Lowden in three counties and Senator Wood in one county. Fourteen counties are in doubt.
Indiana gave Wood a plurality in the Calumet region has won a plurality of 1946 votes in seventy-one out of the ninety counties reporting. In Indiana Johnson has polled 250 more votes than the total of the three opponents.
The Republican State Convention has already begun in Indianapolis on Wednesday and Thursday. The question of whether Indiana delegates to the national convention at Chicago shall be pledged for Cleveland or for Wood is the subject of much discussion. The law provides that only a majority of the votes cast is binding.
FAVOR BEER PLANK.
SEN. F. PAY WALKER, of the Vineland Act so as to the manufacture and sale of light wines and beer of the Democratic State Convention. A recommendation of the Central Committee that delegates be instructed to vote as they see fit was rejected.
